WHY CHOOSE COVERDRONE?

Fly worldwide

Wherever your work or adventures take you, stay protected under our policy (subject to certain excluded territories).

Fly with confidence

All our policies are fully EC785/2004 compliant and provided by leading aviation underwriters, giving you real assurance and protection.

Only pay for what you need

Choose a policy term that reflects your own drone use, from as little as one-days' cover to protection for a full year.

Protect the things that matter to you

Get covered for third party liabilities, protect your own (or hired-in) equipment, or choose a mix of both for that extra peace of mind.

Stay in control of your policy

Make changes to your policy at a time and place to suit you through your Online Account.

Protect against flyaways or theft

Flyaways are actually really common, even for the most experienced flyers. But there's no need to worry. Our policies cover your drone if it is stolen or disappears.

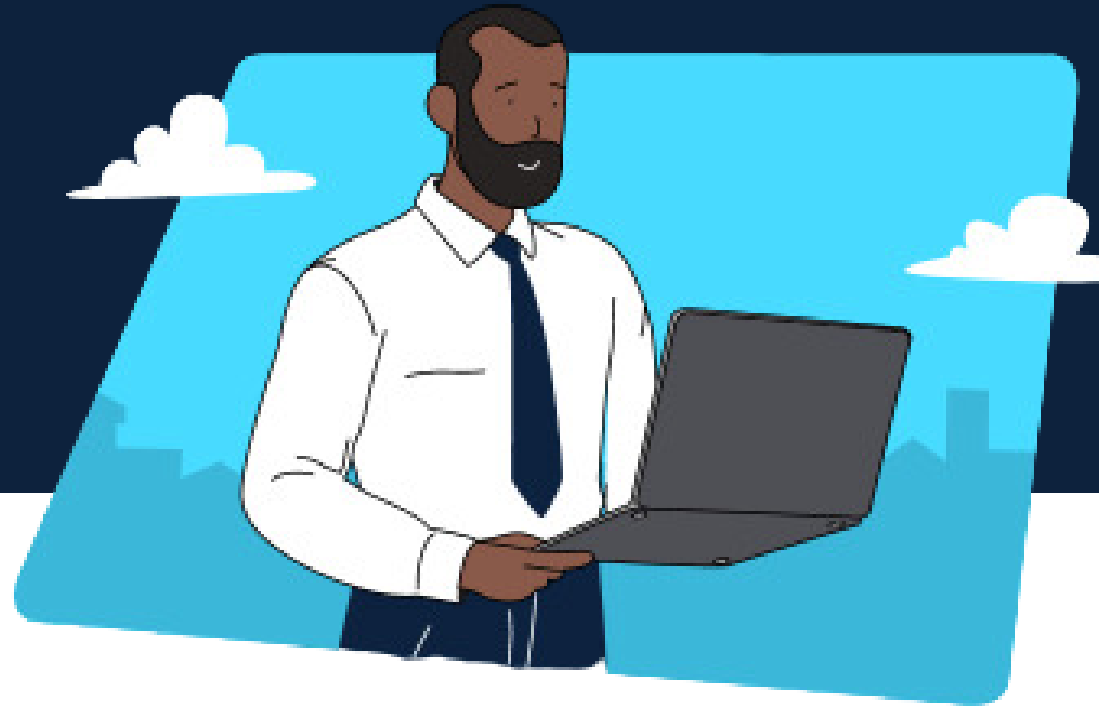

Low policy excesses

What's more, we provide 'new-for-old' replacement equipment following a claim (subject to availability)

Award-winning claims service

All claims are managed in-house under a delegated authority basis, providing an efficient claims solution for operators and allowing for quicker decision-making.

DID YOU KNOW?
IN 2023, WE PAID OVER **97%** OF ALL
CLAIMS REPORTED TO US

So you can fly with complete confidence, knowing that our helpful and award-winning in-house Claims Team will quickly get to work if something happens.

MAKING THE COMPLEX SIMPLE

At Coverdrone, we believe underwriting referrals should be the exception, not the rule!

Want to arrange your insurance on a Friday night? That's not a problem! Get an instant quote and buy drone insurance online straight away without waiting until the next working day for an Underwriter to review your case.

Instant cover provided for:

- BVLOS flights (including flights underground or in confined spaces)
